

BarTender® 2021 edition comparison

UltraLite / Starter / Professional — For printer manufacturer and partner use only

General		UltraLite	Starter	Professional
Streamlined installation	Easy installation for both 32-bit and 64-bit versions of BarTender®	•	•	•
Ease of use	Intuitive, easy-to-use user interface, translated to more than 20 languages	•	•	•
Quick start	A collection of configurable, industry-focused, ready-to-use BarTender documents	•	•	•
Comprehensive help system	A complete how-to library, accessible both through BarTender and on the web	•	•	•
Off-line activation	Improved off-line activation process using local storage media or mobile device (available in R6)	•	•	•
Coupon Code	Printer partners can provide a single BarTender product key code to customers	•		
30-day Trial period	Free 30-day trial period of all BarTender Enterprise edition features	•		
Opt-in customer registration	Customers can activate without providing any personal registration information	•	•	•
Unlimited users	Enable multiple users to print labels from any networked PC	•	•	•
Included printers	BarTender is licensed by printer — contact your authorized software vendor to obtain pricing for Professional Edition	5 printers	3 printers	1+ printers
Included Companion applications		UltraLite	Starter	Professional
Administration Console	A single destination for managing the features available in your edition, including security, licensing, integrations, printer failover and more	•	•	•
Designer	Create your label and document templates - also serves as the print engine when integrating and automating the label printing process	•	•	•
Template design		UltraLite	Starter	Professional
Easy WYSIWYG template design	Design tools make it easy to create and print professional labels and documents	•	•	•
New Document Wizard	An easy-to-follow wizard that ensures proper document settings for quality and printing performance	•	•	•
Fonts	Versatile support for OpenType, TrueType and native printer-based fonts	•	•	•
Text formatting	Familiar, Word-like tools for you to easily create and format text	•	•	•
Text transforms	Add flair to your text objects with a variety of effects, such as fading, inflating, slanting, and more	•	•	•
Shapes and lines	Choose from over 50 shapes and 100 line style combinations	•		•
Text wrapping	Create dynamic text that wraps inside and around shapes, objects, document borders and more	•	•	•
Unmatched barcode support	Easily create greater than 100 linear and 2D symbologies and standards	•	•	•
Human readable barcode	Highly configurable human readable text and character formatting options	•	•	•
GS1 Application Identifier Data Source Wizard	Build barcodes in seconds using the latest GS1 compliance standards	•	•	•
Graphics and images	Import more than 70 graphic formats, including AI, PNG, JPG, BMP, TIF, EPS and GIF	•	•	•
Symbols	Choose from a wide variety of included symbols and industry-based symbol fonts	•	•	•
Tables and grids	Create tables and grids to organize text, barcodes, images and other objects	•	•	•
White-on-black printing	Switch objects from black-on-white to white-on-black printing with a single click	•	•	•
Front and back template design	Create two-sided “duplex” printing with separate designs for the front and back of your template	•	•	•
Full color support	Design commercial quality labels using PANTONE and data-sourced colors			•
Intelligent Templates™	Design and automation tools that leverage data to reduce the number of label files			•

BarTender® 2021 edition comparison

UltraLite / Starter / Professional — For printer manufacturer and partner use only

Intelligent Templates™		UltraLite	Starter	Professional
Layers	Template objects may be stacked, hidden and reordered when created on uniquely identifiable layers			•
Conditional printing	Create data-driven automation rules that specify when different objects, layers or templates in your document will visibly print or become hidden			•
Template selector	Conditionally print one specific template when multiple templates are available in a document			•
Data entry forms		UltraLite	Starter	Professional
Powerful form controls	Make data input and selection easy by leveraging over 15 highly configurable form controls	•		•
Keyboard and mouse input	Use keyboard and mouse commands to select or enter data into forms at print time	•		•
Scanner input	Use a barcode scanner to input information to data-entry forms at print time	•		•
Image capture	Capture images at print time for ID cards or event badge printing	•		•
Data validation	Reduce user input errors by introducing data validation and error checking	•		•
Printer drivers and monitoring		UltraLite	Starter	Professional
Drivers by Seagull™	Windows printer Drivers by Seagull™ enable high-performance printing	•	•	•
Print optimizations	Improve print speed by taking full advantage of printer-based features such as serialization, barcodes, real-time clock, static data and graphic caching	•	•	•
Status monitoring	Reports information back to Windows regarding printer/print job status and error conditions	•	•	•
Printer configuration and diagnostics	Perform printer management functions in BarTender, bypassing the printer front panel	•	•	•
Other printer drivers	Print to any printer that has a Windows-based driver	•	•	•
Email alerts	Automatically notify IT managers or other operational team members if labeling problems occur	•	•	•
Printing, encoding and exporting		UltraLite	Starter	Professional
Print productivity	Print labels and documents to any Windows-based printer	•	•	•
On-demand printing	Print labels and documents on-demand	•	•	•
Batch printing	Batch together dynamic print jobs that can use one or more BarTender templates	•	•	•
Print preview	Review your dynamic print jobs before printing	•	•	•
RFID, smart and magnetic stripe cards encoding	Encode RFID tags, smartcards and magnetic stripe cards as easily as adding barcodes to your template design			•
Native PDF generation	Generate PDFs without installing third-party PDF drivers			•

BarTender® 2021 edition comparison

UltraLite / Starter / Professional — For printer manufacturer and partner use only

Data sourcing and databases		UltraLite	Starter	Professional
Date and time	Dynamically source dates and times from Windows or clock-enabled printers	•	•	•
Data validation and processing	Specify data validation rules and automatically correct data or issue warnings	•	•	•
Concatenate data	Create text and barcode objects that combine information from multiple data sources	•	•	•
Simple serialization	Increase or decrease your serial string data by increments of one (1)	•	•	•
Advanced serialization	Create serial numbers that support alphanumeric, hexadecimal, and custom sequencing patterns	•		•
Basic database connectivity	Connect to Excel or RFC 4180 standard CSV files to import variable data into your template		•	•
Database filters	Print select database records using convenient query and filter options		*	•
Database sourced tables	Easily create tables using data from a database or external file		*	•
Dynamic data preview	See how your document handles real dynamic data during the design process		*	•
Dynamic graphics and images	Automatically source images for printing based on selected database records or queries		*	•
Enhanced database connectivity	Connect BarTender document designs to external data sources such as SAP, Oracle, MS SQL, Azure SQL, XML, Data Builder, text files and more to print dynamically			•
Embedded database tables	Create your own database tables that travel with your BarTender document designs			•
Create a database	Build your own database from scratch using intuitive tools included with BarTender			•
Write back to databases	Write back to SQL-based databases to keep track of printed records, serial numbers and much more			•

* Basic databases only (Excel or RFC 4180 standard CSV file)

Support		UltraLite	Starter	Professional
Free Support	End-users can access online resources plus technical support via email	•	•	•
Standard Maintenance and Support	Updates to the latest BarTender releases and versions and live technical support by phone and chat with first-time guaranteed response time of 24 business hours		Includes 1 year	Includes 1 year

BarTender Release 11.2 R5 and above
