

BarTender® 2021 UltraLite Edition

Software to create labels, barcodes and more.

Designed for individuals and small departments, the BarTender® 2021 UltraLite Edition lets you design and print barcode labels and cards in just minutes.

UltraLite Edition includes many of BarTender's most often used design and print features:

- ▶ BarTender Designer makes it easy to design labels and cards using your new printer.
- ▶ Drivers by Seagull™ leverage your label and card printers' special features for optimal performance. For more advanced labeling and document scenarios, UltraLite 2021 includes access to a 30-day Trial of BarTender 2021 enterprise edition.

Look to the Professional Edition to include content from external data sources such as text or Excel files.

Create high-quality labels, barcodes and cards in minutes

BarTender® 2021 UltraLite includes our most frequently used label and document design features, including all text, graphics, barcode, and serializing capabilities.

Flexible, powerful design

BarTender 2021 UltraLite gives you the design power and flexibility to satisfy your most demanding labeling needs:

- ▶ Use our professionally designed templates or design your own.
- ▶ Let BarTender's smart wizards guide you through critical design decisions to maximize printing performance and compliance with important standards.
- ▶ Select among 50+ drawing shapes, and resize, reshape and color them in just about any way imaginable.
- ▶ Use BarTender's hundreds of symbols and images or import your own graphics.

- ▶ Use your fonts or those built into the printer.

- ▶ Design forms for entering data at print time.

- ▶ Generate anything from simple serial numbers to advanced custom serialization sequences.

High-performance printing

Drivers by Seagull™ take advantage of special high-performance printing features that are not typically accessible to other Windows programs, including printer-based serialization, real-time clocks, printer-based performance optimizations, local printer caches for graphics, and templates.
